Bjelovar, Croatia | +385 91 3593 066 | josip.kustan@gmail.com | linkedin.com/in/josip-kustan | creativestudiokuki.com/portfolio

Experience

Lead Designer & Design Engineer (Freelance)

Newslabs

03/2026 – Present

Creating and handling the visual language of the brand across the web and the app.

- Own the brand's visual language and keep it consistent across web and app.
- Design web and app interfaces, from UX work (flows, structure, testing) to final UI.
- Build front-end implementations, bridging design and development.

Artisan & UX/UI Freelancer

Creative Studio Kuki (Self-Employed), Bjelovar, Croatia

09/2024 – Present

Unique creative solutions: UX/UI freelance, small business sites/apps, event apps, personalized miniatures, and memorabilia.

- Delivered UX/UI design for small business websites, tool apps, and event applications.
- Created personalized story-driven miniatures and memorabilia for individuals and businesses (specialty).
- Designed brand assets, employee gifts (e.g., 20-year anniversary sticker album, gift miniatures).
- Organized events, game nights, and moderated for memorable experiences.
- Collaborated with clients and professionals to guide creative processes from concept to delivery.

Key Tools: Hands, Figma, Blender, 3D printing/resin workflows.
Notable Projects: 2025 World Men's Handball Championship app; Employee gift miniatures & company memorabilia.

UX/UI Designer

CROZ d.o.o., Zagreb, Croatia

01/2021 – 08/2024

Enterprise solutions, mobile/web apps, and websites.

- Developed design strategies, systems, and style guides with Figma libraries and Storybook documentation.
- Defined app objectives, information architecture (sitemaps, user flows, wireframes), and clickable prototypes.
- Designed user interfaces with color schemes, typography, icons, and iterated based on usability testing and feedback.
- Managed developer handoffs, quality assurance, and upgrades for new and existing solutions.
- Led design workshops, stakeholder sessions, and mentored teams.
- Negotiated client requirements, presenting feasible solutions and limitations.

Front-end Developer (~6 months)

- Built interfaces with HTML/CSS, React.js, WordPress/Elementor, and Flutter.

Key Tools: Figma, Atlassian Suite, Maze, Useberry.
Notable Projects (not under NDA): Tiller Design System; Fundraising Website (cinipravustvar.hr); CodeX Marine (links and case studies in the portfolio).
Speaker/Moderator: QED Conference (international), game nights organization.
Image/Video: Adobe Suite, DaVinci Resolve, Affinity Suite.

Education

Bachelor of Software Engineering

Algebra University

08/2019 – 02/2023

Average Grade: 4.0 / 5.0 (Very good)

Bachelor Thesis: Optimization of 3D model display in web browsers (Qualitative research)

Languages

Croatian: Mother tongue

English: C2 (listening, reading, spoken production, spoken interaction), C1 (writing)

Hobbies & Interests

Craftsmanship: 3D printing, sculpting, painting, woodworking, sewing (foundation of my business).

Cooking: Passionate experimenter; recipe development and gourmet techniques. Successfully led a professional kitchen in summer '25.

Dancing: National-level standard and Latin sport dancing (youth).
